Nominations and number of students accepted: Up to 30 in total. As a rule of thumb, no more than 8 per partner. For nominating, please send your students information to erasmusbip@ual.es before February 24th 2023.

Content of the onsite program:

This programme aims at the development of entrepreneurial competences where teams of different disciplines will be formed to turn an idea into a project with the help of experienced mentors who will guide them in this process.

The course will be experience-based where the participants will engage in the transformation of their own ideas into entrepreneurial projects linked to the ESG.

[See next page...]

The program will include sessions on Idea generation and selection, team building, business model selection and validation, marketing, prototyping, financial aspects and pitching among others. All the participants will have the opportunity to present their projects in the event “Feria de las Ideas” (www.feriadelasideas.es).

We will have experienced entrepreneurs as mentors, who will also showcase key aspects of the entrepreneur path through their own experience of growth and development.

The program will be completed with some outdoor training activities and field visit to near accelerator and incubator companies.
