<p>Chinese language 1 is focused on developing language/communication/social/cultural skills essential for future professional activities of current students in international tourism and hotel management. The emphasis is on the socio-rhetorical aspects of communication in tourism and hotel management. Depending on the (known) future professional needs of students, defined on the basis of their professional intentions, wishes and aspirations, prior analysis of labor market needs, analysis of available teaching materials, and the results of relevant scientific research, the necessary competencies are defined, as well as knowledge / skills at the macro (reading, listening, speaking, writing) and micro (e.g. text connectors, discourse labels) level. Since language skills are interrelated and the use/development of one skill inevitably requires the use (and influences the development) of another skill, the approach to acquiring these skills is integrated.</p>
