# UNDERSTANDING AND APPLYING THE GENERAL METHOD OF MOMENTS (GMM) WITH INTERACTION VARIABLES AND NONLINEAR TERMS

[fthm.uniri.hr](http://fthm.uniri.hr)

## WORKSHOP HIGHLIGHTS:

This workshop is designed to provide participants with a deep understanding of the General Method of Moments (GMM) and its practical applications, particularly focusing on interaction variables and nonlinear terms. Through a combination of theoretical insights and hands-on exercises, participants will gain the skills necessary to apply GMM in their research and analysis using STATA.

**DURATION:** TOTAL OF APPROXIMATELY 10 HOURS

### WHO SHOULD ATTEND:

This workshop is ideal for researchers, data analysts, and students who are interested in learning about GMM and its applications. It is especially beneficial for those planning to work with panel data using dynamic models. A basic understanding of econometrics and familiarity with STATA is recommended.

**SOFTWARE USED:** STATA

**REGISTRATION FEE:** 50 EUR

**DEADLINE FOR APPLICATION:** 18.06.2024.
