Course title	Management accounting				
Study programme	Undergraduate study: Business Economics in Tourism and Hospitality				
	Module: Hospitality Management				
Course status	compulsory				
Year	3rd year				
ECTS credits and form of	ECTS credits	6 ECTS			
instruction	Number of hours (L+P+S)	(30+15+15)			
COURSE DESCRIPTION					

1.1. Course objectives

The objective of the course is gaining theoretical knowledge in the field of traditional and nontraditional costing methods and internal reporting system as well as practical skills and knowledge related to their use in the hospitality industry.

1.2. Course enrolment requirements

None.

1.3. Expected course learning outcomes

It is expected, that after fulfilling all the obligations of the course, the students will be able to:

1. Explain and interpret different business costs and prepare a calculation of products, services, market segments, distribution channels and similar.

2. Calculate and compare income statement according to absorption and marginal costing method and interpret the differences in the results and stock valuation.

3. Prepare daily and monthly reports for different responsibility centres as well as the monthly hotel income statement according to USALI method.

4. Assess traditional and non-traditional costing methods and compare their approach in costing techniques and cost allocation.

5. Critically conclude importance and benefits of information from internal reports.

The students, besides specific competencies, will actively participate in the class activities and case studies, and will develop the capabilities of analytical and critical thinking and team work

1.4. Course content

The course content is focused on management accounting tools that are used in internal reporting systems organization and in internal reports preparation. Numerous case studies are used that enable students to gain knowledge about the limitations of current practices and the possibilities of system enhancements. The course consists of the following topics:

Introduction into Management Accounting. Connections between management, cost and financial accounting. Management accountant as a profession. Cost classification. Full and variable costing.
